Summary

Sun Yat-sen University (SYSU) School of Computer Science and Engineering

- Major in Computer Science and Technology / Minor in Finance

- [Microsoft] Microsoft Learn Student Ambassadors

- [IEEE] IEEE Student Member

Born in 2004 in China, I am currently studying computer science at Sun Yat-sen University. Passionate about programming, I am proficient in C language and currently learning C++ and Python. I have a strong interest in machine learning and am learning data structures and algorithms, machine learning theory, MLOps to enrich my machine learning knowledge. I am also working with my mentor on robotics and automation research.

Experience

Student Ambassador

Microsoft

Jul 2022 - Present (1 year 5 months)

During my tenure, as a Microsoft Student Ambassador, I have had the privilege of responsible for and fulfilling the following important responsibilities and achievements:

1. Learning and Growth

Successfully completed the learning path of Microsoft Learn, gained an in-depth understanding and mastery of related technical fields and tools, and was promoted to become an Alpha Student Ambassador.

2. Promotion & Communication

At the MLSA workshop event in the Philippines, I not only participated as a keynote speaker, but also shared best practices for Microsoft's technology and tools for attendees. My sharing was well received by students and listeners.

3. Community Building

As a Student Ambassador, I have worked to create a robust tech community on campus. I encourage students to participate in technical activities, learn and discuss together, so that the popularization and application of Microsoft technology among students has been effectively promoted.

4. Skills Development

I help students develop their technical and vocational skills. Not only do I share my thoughts and experiences during my studies, but also provide guidance and advice so that more students can prepare for their future careers.

5. Certification and Eligibility

I am honored to receive the Microsoft Student Ambassador credential, the certificate link is as follows: <https://learn.microsoft.com/zh-cn/users/me/achievements#badges-section>. This is a testament to my efforts in technology and Microsoft's recognition of my abilities.

6. AI Challenge participation

I actively participated in the AI Skills Challenge organized by Microsoft. This is an event that dives deep into the entire process of AI application development, with a particular focus on all key steps from data preparation to model training to testing and deployment.

Education

Sun Yat-sen University

Bachelor of Science, Finance, General

2023 - 2026

Sun Yat-sen University

Bachelor of Engineering, Computer Science

2022 - 2026

Licenses & Certifications

Programming in C Certification - LinkedIn

Machine Learning Fundamental Certification - LinkedIn

Career Essentials in Generative AI by Microsoft and LinkedIn - Microsoft

Skills

Machine Learning • C (Programming Language) • GitOps • github • MLOps • 机器学习 • Code Generation • ML Algorithms • ML Accelerators • Capital Markets Analysis
